Summary & Strategic Takeaways

FinSight's 2025 data paints a picture of a resilient and growing financial platform with clear opportunities for targeted growth across segments, geographies, and transaction types.

Revenue Growth

Total Amount grew **1.41% YoY** to ₹137.53M, with Average Transaction Value rising 1.98% — indicating higher-quality transactions even as volume slightly declined.

Geographic Concentration

Maharashtra, Karnataka, and Gujarat together account for **₹53.1M (38.6%)** of total value. Expanding into Tier-2 states like Haryana and Kerala presents significant upside.

Failed Transaction Risk

With **10.4%** of fees tied to failed transactions, reducing failure rates through improved payment infrastructure could recover meaningful revenue.

Segment Opportunity

The Retail segment dominates at ₹76M but the **SME and Corporate** segments show potential for higher-margin growth through targeted product offerings.
